The vote on a legal regulation according to which criteria suicide assistance can be claimed is not yet on the agenda in the Bundestag. DGHS President RA Prof. Robert Roßbruch doubts whether such regulation is necessary at all.

Reason enough for new political campaigns, which he presented to the press in February in the new offices. He also reported on the number and motives for assisted suicide arranged by the DGHS in the past year (pp. 4-7).

In the spring edition of "Humanes Leben - Humanes Sterben" (2023-2) there is also a look at the new business premises (p. 8-9) as well as explanations for the open-ended end-of-life counseling Schluss.PUNKT, which can be reached by telephone on 08 00/80 22 400 Mon-Fri 9 a.m.-1 p.m., Tue + Thu 2.30-5 p.m.

An article by Michael Houy (pp. 14-15) promises interesting facts about the new right of emergency representation for spouses, which has been enshrined in law since January 2023. There are more and more alternatives to the classic burial, one of which is called re-burial. You can read what this is all about on pages 33-34.

Book reviews, press reviews and event tips round off the magazine as usual. Your HLS editorial team wishes you interesting and profitable reading!
